TUESDAY 4TH AUGUST.

My dear Julia,

This is a note to say thank you for your enormous contribution towards getting Eldorado up and running. I can honestly say I do not think anyone else could have achieved it. There is so much to be proud of. I am truly sorry that it has taken so much out of you. However, when Eldorado gets into its stride, and I know it will, much of its success will be down to your great creative strength.

With affection & respect
